LIBRARIAN'S REPORT

Haynes Library was open on Saturday afternoons from May 1st to December 1st, 1946. It is a matter of regret that on account of expense, the library has been closed during the winter. Considerable interest was shown last year by both summer and year round residents. Thanks to the cooperation of a local group under the leadership of members of the Library Association, money for new books is available and we look forward to a successful season in 1947.

A special effort to interest the children was made last year. A children's center in front of the sunny back windows was much in use.

The Bookmobile furnished books for the children at the village school.

The library will be opened again in May.

Respectfully submitted,

NELLIE K. WADHAMS

SUPERINTENDENT'S REPORT

The educational problems of Alexandria are about as involved as they can be. Alexandria is a large area; lumbering is an important factor; it is near a larger town with a graded school system; it is geographically split with South Alexandria a small unit in itself; its school buildings are in serious need of extensive repairs. These problems are complicated by the extreme shortage of teachers and a rapidly rising salary scale. Serious and careful thought needs to be given to these problems. I would like to make my position very clear. I conceive it my job to get the best possible education for the children in my union at a cost which is reasonable in light of other events and conditions. I oppose openly anything tending in any other direction; I will support any move which is aimed at this goal even though it might not be in

my estimation the best plan. Time has proven me wrong on many things before and will again. The people of Alexandria have the authority to say what they want and are willing to pay for. Higher authorities will not interfere provided the schools meet a minimum standard. In view of these matters I am submitting an estimate of costs of various plans for your consideration. We all know that estimates of costs at this time may not be good a few months from now, but any changes would affect all plans similarly. The figures of possible state aid depend on the new program of Commissioner Fuller now before the legislature and are based on figures of 1945—1946. Actual aid will be based on what the legislature does and revised statistics. Actual aid estimates do vary a bit from the \$3,100 which is a good round figure. Details of various plans are available at the office or from school board members. The summary only will appear here. No attempt will be made here to evaluate from the standpoint of good education these various plans. To do so would be to enter into the wide field of opinion, prejudices and "pet peeves" and would take many pages to analyze carefully. Nor does any plan provide for major repairs and maintenance of existing buildings.

Experience shows that an over estimate in some items will be more than matched by under estimates in others. This is just an honest attempt to present the facts to the best of my ability and anyone is free to present the facts to better advantage.

It is not expected that any snap judgements should be made from any of these plans, but rather that these plans may be studied during the next year in order that a better understanding may be had of any future action. In view of the possible changes in our basic state aid law and the uncertainties involved, little else can be done. The school board budget is based on plan 1 with good assurance that definite aid will be given next year on the same basis as this year if circumstances remain the same.

It can be seen from any of the plans that more state aid for the schools as a whole and for Alexandria in particular is an item worth considering and supporting. It would almost seem that good education in New Hampshire will be impossible in many instances without increased aid from taxes other than the local property tax.

Respectfully submitted,

C. MAURICE GRAY
Superintendent

Alexandria, 1947--1948
